

CYBER SECURITY WORKSHOP & BREAKFAST

May 4, 2017 • 7:30–9:30am

The world today is integrated and connected in ways that were only dreams a mere ten years ago. But with the benefits, come great risks. Every single day a virus or hacker will compromise everything from a home computer or smartphone to the server of a billion dollar corporation. It's no wonder that at the top of the list for Risk Management is CYBER SECURITY.

Join us for a "Need to Know" morning of information and instruction. You may just discover what you need to prevent the next attack.

Featuring the expertise of:

- 🔑 **Scott Augenbaum** (FBI Special Agent)
 - Social Engineering Schemes
 - 2 Factor Authentication
 - Prevention vs Remediation
 - Real Victim Stories

- 🔑 **Milton Bartley** (Co-founder, President & CEO, ImageQuest)
 - Pros & Cons of Cyber Security Insurance
 - Employee Education
 - Business Risk Assessment
 - Password Tips
 - Real Client Stories

- 🔑 **Derek Johnson** (Director, Service Delivery, Peak 10)
 - Ransomware (Cryptolocker) - What is it?
 - What to do if you are compromised
 - How can you prevent re-infection?
 - Peak 10 Customer Case Studies
