

Facilities and Services for Students with Disabilities

Students who believe they have a disability which might affect learning or access to classes at Williamson University should visit the Director of Student Services.

Disabilities may include but are not limited to the following: ADHD, learning disabilities, visual or hearing problems, physical disabilities, and psychiatric disabilities.

Accommodations are available to students with an eligible disability, but it is the obligation of students to seek services if desired. The college aims to make activities and facilities accessible to all. Examples of accommodations include offering alternate formats for assignments, audio books, extended time, etc. Please note that accommodations are made on an individual basis.

Additionally, the University has a policy related to handicapped students and personnel. It can be referenced in the University catalog. It reads as follows:

Williamson University supports state and federal legislation to enable the handicapped to be either an employee or a student at the University without physical restraints restricting access to the University. The University will provide access to all offices, laboratories, classrooms and the library without the use of steps or steep ramps and will make all restrooms handicapped accessible. The University will take other action as might be required by local ordinance or state and federal law.
